The State of the Company's Affairs

Your Company has entered into 14th year of commercial operations. The riding quality is appreciable and within limit specified under the Concession Agreement. Greenery is well maintained across the project. Two improvement works i.e., Construction of ROB and Construction of Vehicular underpass has been taken up by the Company under Change of Scope as required by National Highways Authority of India. Vehicular underpass has been completed and ROB work is in progress. This will enhance the road user safety.

Continuous efforts are being put in to enhance the safety of road users by involving various stake holders. The Company has achieved 100 % Lane Availability and the operations of the Company were satisfactory. Also, various Corporate Social Responsibility activities have been organized in association with GMRVF to benefit the people.

Global Pandemic -COVID-19

Due to second wave of Covid-19, restrictions/lockdown were imposed by various State Government from April 2021 which got extended till June 2021 with certain relaxations in place, which impacted our business. However, business is on recovery path post lockdown. By staying true to its purpose and its values, the top-most priority for the Company was to ensure the safety of its employees. The Company has taken several measures to ensure their well-being including leveraging the power of technology to enable them to work from home and decided to adopt remote working as an integral part of our business and continuity plans. However, those working in operations and maintenance from office, post relaxation in lockdown norms, their safety is being ensured by stringent use of protective gear, abiding by social distancing norms and taking all safety precautions including weekly RT-PCR Testing, vaccination facilities for employees and its families at various GMR Locations. After reduction of Covid infections, routine RT-PCR testing is done away, however, necessary safety precaution is still taken at the offices

Further, a support measure policy providing following assistance has been put in place to support the families of deceased employees, if any, due to Covid:

1. 50% of the monthly gross salary for 3 years as living allowance (maximum limit of 2 Lacs per month) to be paid on a monthly basis.
2. Children Education Assistance of Rs. 10,000/- per month per child up to the age of 21 Years.
3. Medical Insurance Coverage of Rs. 1.5 Lacs to the family for 3 years
all of the above OR
4. Consideration of either spouse/children for job opportunities within the company on the basis of skill sets, education qualification and availability of vacant position.

The company is continuously adapting to the situation and has focused on the following measures to mitigate the COVID- 19 challenges:

- Cash conservation through rescheduling of Capex plan, if any and control on operational costs.
- Reviewed all budgets which has resulted in reducing operating expenses significantly.
- Ensuring maximum security & safety to our customers and other stakeholders to restore their confidence such as adapting to effective hygiene standard at our assets/ facilities.

Auditors and Auditors' Report

Statutory Auditors

M/s. Chaturvedi & Shah LLP, Chartered Accountants, (Regn. No. 101720W), were appointed as Statutory Auditors in the AGM of the company held on 27th August, 2018 for a period of 5 years commencing from F.Y. 2018-19.

Qualification / Reservation/ Adverse Remark or Disclaimer in the Auditors' Report

Commenting on Note 33 and 5(a) & 5(b) to the financial statements of the Company for the year ended March 31, 2022 the Statutory Auditors without qualifying the Audit Report had placed the following observations under Emphasis of Matter:

- a. *We draw attention to Note No. 33 to the accompanying standalone financial statements, with regard to non-giving effect to the order of the Honorable High Court of Delhi dated April 06, 2022 by upholding Company's contentions, with regard to applicability of overlay work only on increase in roughness index of roads, pending finality. The management is of the opinion that National Highways Authority of India (NHAI) has time to challenge the order in the appellate court, hence Company has not given financial effect to the impact of the order.*
- b. *We draw attention to Note No. 5(a) & 5(b) to the accompanying standalone financial statements, with regard to contingent consideration receivable of Rs. 1,456 Lakhs (net of fair valuation loss of Rs. 1,239.45 Lakhs) towards sale of investment in compulsorily convertible debentures (CCD's). The recoverability of such contingent consideration is dependent on recoverability of consideration post achievement of the milestones as detailed in the aforementioned note, the achievement of which in their inherent nature are uncertain.*

Explanation given by the Management:

Note No. 33:

The Company had received a penalty notice from National Highways Authority of India (NHAI) levying a penalty of Rs. 1,031.00 Lakhs for delay in completion of First Periodic Maintenance of the Project which was subsequently enhanced by CAG to Rs. 2,344.00 Lakhs. NHAI had subsequently deducted Rs. 1,078.62 Lakhs as penalty and damages while releasing 18th Annuity in March 2018 and from 22nd Annuity an amount of Rs. 1,430.48 Lakhs with further deduction of an amount of Rs.197.90 Lakhs from 25th Annuity towards non-fulfilment of O&M Obligations and non-curing of deficiencies in the time specified in Service Concession Agreement (CA) which is considered recoverable in the opinion of the management.

The Company had invoked Arbitration proceedings against NHAI in respect of the dispute on applicability of carrying out periodic maintenance (overlay work) of the road project once in every five years in the Concession Agreement. On January 14, 2020, the Hon'ble Tribunal had pronounced the award wherein it had not agreed with the contention of the Company that overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and had held that the Company has to carry out overlay irrespective of the condition of the road. In view of the finding, the Tribunal has directed the Company to commence second overlay work with effect from April 01, 2020 and complete by December 31, 2020 and also complete the third overlay work by April 01, 2025. The NHAI has challenged the award before the Hon'ble High Court of Delhi with regard to extending the timeline to commence and complete the second overlay work and third overlay work stating that such concession is not in accordance with Concession Agreement.

The Arbitral Tribunal had further directed NHAI to refund the amount of Rs. 1,078.62 Lakhs which was wrongly deducted from the annuity along with interest @12% p.a. from the date of deduction. The Arbitral Tribunal has also directed NHAI to pay Rs.30.00 Lakhs towards costs of litigation and the entire amount of fee paid to the Arbitrators by the Company on behalf of NHAI. NHAI had challenged the award with regard to directions for refund of amount before the Hon'ble High Court of Delhi.

Aggrieved by the findings of the Tribunal, to the limited issue of requirement of overlay upon every 5 years, the Company has filed an application under Section 34 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi by challenging the award to the extent of wrong interpretation of clause 4.3.1 of schedule "I" to CA and rejection of claims for reimbursement of cost of overlay incurred by the company which under given circumstance was not required pending disposal of appeal.

The Honourable Delhi High Court vide its order dated April 06, 2022 had upheld the Company's contentions and held that the overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and rejected the arbitration order which had held that the Company has to carry out overlay irrespective of the condition of the road every five years. It has further upheld the Company's claim in respect of the cost incurred on the first major maintenance and directed that the quantification of the claim to be done by the arbitrator appointed by it. The awards of tribunal on other matters favourable to the Company was further upheld by the High Court.

The Management of the Company has been further advised by its legal counsel that the order of the single bench of the Honourable High Court of Delhi would be challenged by NHA before the Appellate Court and the matter has not yet attained finality. The Implication of the favourable order to the Company would have affected the carrying value of Service Concession Receivables by reduction of the outflows on overlay cost which would have resulted in significant modification gain to the Company on reversal of those provisions. Pending finality and clarity in the matters the Company under prudence has not affected the impact of the order in the financial asset pertaining to the service concession agreement and has carried the provision for overlay cost in the books considering that there would be outflows with regard to the second and third major maintenance (overlay work) for arriving at the financial income and modification gains and has not reversed the provisions done for overlay works. The modification gains to give effect to the order of the single bench of the Honourable High Court of Delhi would be given on the finality of legal proceedings.

Note No. 5

- (a) GMR Power and Urban Infra Limited[^] (GPUIL/holding Company) [erstwhile holding Company GMR Infrastructure Ltd (GIL)] had divested during the previous year its entire 51% equity stake along with its subsidiaries held in Kakinada SEZ Ltd (KSEZ) to Aurobindo Realty & Infrastructure Pvt Ltd (ARIPL). In terms of the divestment plan, GIL (now GPUIL[^]) along with KSEZ, GMR SEZ & Port Holdings Limited and Kakinada Gateway Port Limited had entered into Securities Sale and Purchase Agreement (SSPA) with ARIPL, on September 24, 2020, as amended on March 31, 2021. The Company along with GIL, KSEZ and other group companies had entered into a Memorandum of Understanding (MOU) on March 31, 2021 with ARIPL. In terms of this MOU and debenture subscription agreement entered with Kakinada SEZ Limited on March 31, 2021, the Company had converted a portion of existing loan amounting to Rs. 3,729.57 Lakhs into 3,72,95,676, 12% Compulsorily Convertible Debentures (CCD's) of Rs.10 each for a period of 29 years.*
- (b) The Company had further entered into Debenture Purchase Agreement (DPA) on March 31, 2021 with ARIPL and KSEZ. In terms of DPA, the company had agreed to sell 3,72,95,676 CCD's on closing date for a total consideration of Rs. 4,181.97 Lakhs (including contingent consideration payable by ARIPL of Rs.3,147.85 Lakhs on achievement of milestones) subject to terms and conditions set out in DPA. Total consideration including additional payment of Rs. 3,147.85 Lakhs payable over next 2 to 3 years as per Annexure I of DPA is based on achievement of certain agreed milestones primarily related to the sale of 2,500 acres of the land parcels at specified prices during the financial years ended March 31, 2022 and March 31, 2023. These milestones are market dependent and are not under management control. The receivable/investment on CCD's had been fair valued as on March 31, 2021 by the Company at Rs. 3,307.12 Lakhs (including upfront consideration of Rs. 1,034.12 Lakhs) from an expert valuer who had considered various assumptions and scenarios on achievement of milestones with probable outcomes which was significantly dependent on future development in KSEZ and Governments approvals.*

The Company's investment in KSEZ CCD's was transferred in the name of ARIPL on August 20, 2021 against the consideration received of Rs. 1,034.12 Lakhs and the balance amount receivable towards sale of investment in CCD's in KSEZ of Rs. 1,456.00 Lakhs (net of fair valuation loss) being contingent consideration was classified as 'Other Current Financial Assets'.

During the year, the Company has fair valued the contingent consideration receivable through an expert valuer who had considered various assumptions and scenarios on achievement of milestones with probable outcomes which was significantly dependent on future development in KSEZ and Governments approvals and accounted for the fair value loss in excess of carrying value of the contingent consideration receivable amounting to Rs. 1,239.45 Lakhs [March 31, 2021: Rs.422.45 Lakhs].

The Company/Group expects in next 2-3 years there will be significant development in the Kakinada SEZ which includes the development of Bulk Drug Park, Commercial Sea port, establishment of various port based industries, manufacturing industries, development of new International Airport in Bhogapuram. Based on assessment of the achievement of the aforementioned milestones by an independent property consultancy agency, management of the company is confident of achieving the aforementioned milestones and is of the view that the carrying value of amount receivable towards sale of Investment in CCD's in KSEZ being fair valued contingent consideration as at March 31, 2022 is appropriate. The above sale transaction is subject to receipt of Regulatory and other Statutory Approvals.

^transactions with GMR Infrastructure Limited [GIL] is transferred in the name of GMR Power and Urban Infra Limited [GPUIL] w.e.f. January 01, 2022 in terms of the Composite Scheme of Arrangements approved by the National Company Law Tribunal (NCLT) vide its Order dated December 22, 2021.

Particulars of Conservation of Energy, Technology Absorption and Foreign Exchange Earnings & Outgo

(A) Conservation of energy-

(i) The steps taken or impact on conservation of energy -

The Company has implemented various power conservation measures at project site and ensures that these measures function effectively and continuously. These measures include installation of Automatic power factor controller, Timers and Servo Stabilizers.

Additional charges were levied by the electricity board when the power factor falls below 0.90. The Automatic power factor controller helps to maintain the power factor at 0.95 and above. Further, there were power fluctuations at many of the connections and were causing damages to the lighting fixtures and equipment. The servo stabilizers were installed to stabilize the power and save the loss due to damage of fixtures and equipment. Due to the automatic timers, the glowing duration of the highway lights are being optimized.

(ii) The steps taken by the Company for utilising alternate sources of energy -

For Utilizing alternate sources of energy - solar lights have been installed at various locations on the Expressway. Solar LED lights were installed at selected locations in the project such as, truck lay byes and at junctions. The solar lights fixed with timers are functioning effectively and considerably, adding to the power conservation and savings.

(iii) The Capital Investment on energy conservation Equipments - NIL

(B) Technology absorption-

Company has proposed to adopt wireless connectivity for the HTMS – ECBs (Highway Traffic Management System – Emergency Call boxes). Previously these were connected through optical fiber. However due to repeat fiber cuts due to works by various Government departments, the functionality of these equipment was affected. Hence, sim-card technology based connectivity is implemented.

(C) Foreign exchange earnings and Outgo-

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual outflows - NIL

Corporate Social Responsibility (CSR) Policy of GMR Pochanpalli Expressways Limited (GPEL)

PREAMBLE

The Ministry of Corporate Affairs has enacted the Companies Act, 2013 replacing the old law, the Companies Act, 1956, regulating the Companies in India.

As per Section 135 of the Companies Act, 2013 (Act) read with the Companies (Corporate Social Responsibility) Rules, 2014 (CSR Rules), every Company having net worth of Rs. 500 Crore or more or turnover of Rs. 1,000 Crore or more or a Net Profit of Rs. 5 Crore or more during the immediately preceding Financial Year shall constitute a Corporate Social Responsibility Committee of the Board and shall continue to have such Committee till the time company requires to have such Committee under Section 135 of the Act read with CSR Rules or as may be decided by the Board.

The Section also requires to formulate a CSR Policy, which shall indicate the activities to be undertaken by the Companies as specified in Schedule VII of the Companies Act, 2013.

Further, the section also requires that the Board of Directors shall ensure that the company spends, in every financial year, at least 2% of the average net profits of the Company made during the three immediately preceding financial years, in pursuance of its Corporate Social Responsibility Policy.

The Company has been working with the communities neighboring Pochanpalli Expressways Region. The key thrust areas are (i) Education; (ii) Health, Hygiene & Sanitation; (iii) Empowerment, Livelihoods and Community Development. Implementation of various activities under these three verticals is being carried out directly by the Company or with the professional support of M/s GMR Varalakshmi Foundation (**Implementing Agency**) from planning to execution.

In the above background and as mandated by provisions of the Companies Act, 2013, the following is the CSR Policy of the Company.

Corporate Social Responsibility (CSR) Policy

The Company forming part of GMR Group has adopted the CSR Policy of GMR Group. GMR Group (the Group) recognizes that its business activities have wide impact on the societies in which it operates and therefore an effective practice is required giving due consideration to the interests of its stakeholders including shareholders, customers, employees, suppliers, business partners, local communities and other organizations.

The Company is driven by Group's vision to make a difference, specifically to society by contributing to the economic development of the country and improving the quality of life of the local communities. Towards this vision, the Group including the Company, through GMR Varalakshmi Foundation (GMRVF), partners with the communities around the businesses to drive various initiatives in the areas of (i) Education, (ii) Health, Hygiene and Sanitation, (iii) Empowerment, Livelihood and Community Development.

Guiding Principles for selection & Implementation of projects / programs under CSR Policy:

The Company will carry out its CSR activities on its own or contribute funds to GMRVF or any other eligible implementing agency, to carry on activities / multiyear projects or programs as indicated below. While the geographic focus of the CSR activities can be in and around the business operational area, the company can support activities in any part of India, as per the Annual Action Plan, approved by the CSR Committee and the Board.

Opinion

We have audited the accompanying standalone financial statements of **GMR POCHANPALLI EXPRESSWAYS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the standalone financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Emphasis of Matters

- a) We draw attention to Note no. 33 to the accompanying standalone financial statements with regard to non-giving effect to the order of the Honourable High Court of Delhi dated April 06, 2022 by upholding Company's contentions, with regard to applicability of overlay work only on increase in roughness index of roads, pending finality. The management is of the opinion that National Highways Authority of India (NHAI) has time to challenge the order in the appellate Court, hence Company has not given financial effect to the impact of the order.

Contd...2

- b) We draw attention to Note no. 5(a) & 5(b) to the accompanying standalone financial statements, with regard to contingent consideration receivable of Rs.1,456.00 Lakhs (net of fair valuation loss of Rs.1,239.45 Lakhs) towards sale of investment in compulsorily convertible debentures (CCD's). The recoverability of such contingent consideration is dependent on recoverability of consideration post achievement of the milestones as detailed in the aforementioned note, the achievement of which in their inherent nature are uncertain.

Our opinion is not modified in respect of above matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

a. Provision for periodic major maintenance

Provision for periodic major maintenance of project roads requires technical evaluations and critical accounting estimates and judgments.

We have obtained an assurance over the appropriateness of management's assumptions and methods applied in the calculating the provision for periodic major maintenance by carrying out the following procedures, amongst others:

- Obtained the management's calculation of the provision for periodic major maintenance of project roads which is made in accordance with technical evaluation and the Company's policy and checked the assumptions made by the management and discussed with its technical team.
- We have perused agreement entered between the parties concerned for major maintenance.
- We have also considered the appropriateness of the provision based on the Company's historical experience by evaluating the managements' assumptions against provision for periodic major maintenance of project roads with reference to historical track record.
- We have discussed with those in charge with in governance and perused the legal opinion on the implications of the Order of Hon'ble High Court of Delhi on the carrying amount of provision in the books and requirements of reversals if any.

Contd...3

- Performed discussion with those charged with governance with regard to the significant management judgement that has been considered in assessing appropriateness and adequacy of the provision made in books in this regard.
- Ensured appropriateness of the disclosures in the standalone financial statements in accordance with the relevant requirements of Ind As.

b. Loans and advances to the Group Companies including fellow subsidiaries and holding Companies

The Company's loans and advances to the Group Companies amounting to Rs.27,105.47 Lakhs, represents 39.84% of total assets. The evaluation of the recoverable amount of these assets requires significant estimates and key assumptions supporting the expected future cash flows from these assets. In this regard :

- We obtained an understanding of the process for identifying group company loans, performed a walkthrough and verified the related documentation.
- We have obtained the note on creditworthiness of the borrower companies and the financials of the Group Companies along with other supporting documents and discussed with company on their assertions that the loans are good and recoverable.
- We have considered the support letter from the Holding Company, GMR Power and Urban Infra Limited to support the borrower companies to pay the outstanding loans and interests due to the Company for mitigating the credit risk for dues from the borrower companies.

Information other than the standalone Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in Board's Report including Annexures to Board's Report, but does not include the standalone financial statements and our auditor's report thereon. The report containing other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the report containing other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

Contd...4

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management of the Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so..

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.

Contd...5

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

Contd...6

- e) The matters described in the Emphasis of Matters paragraph (b) above, in our opinion, may have an adverse effect on the functioning of the Company;
- f) On the basis of the written representations received from the directors as on March 31, 2022 and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;
- g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B';
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors and manager during the year is in accordance with the provisions of section 197 of the Act.;

- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position to the extent quantifiable in its standalone financial statements – Refer Note No. 33 to the standalone financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses. Refer Note No. 36 to the standalone financial statements;

Contd...7

- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. a) Management has represented to us that, to the best of it's knowledge and belief, (other than as disclosed in the notes to the accounts) no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b) Management has represented to us that, to the best of it's knowledge and belief, (other than as disclosed in the notes to the accounts) no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- c) Based on our audit procedures conducted that are considered reasonable and appropriate in the circumstances, nothing has come to our attention that cause us to believe that the representation given by the management as mentioned above under paragraph (2)(i)(iv) (a) & (b) contain any material misstatement.
- v. The Company has neither declared nor paid any dividend during the year.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **GMR POCHANPALLI EXPRESSWAYS LIMITED** ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Contd... 2

Meaning of Internal Financial Controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The significant accounting policies applied by the company in the preparation of its financial statements are listed below. Such accounting policies have been applied consistently to all the periods presented in these financial statements, unless otherwise indicated.

Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of Companies Act, 2013 (the 'Act') (to the extent notified). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The standalone financial statements are presented in 'Indian Rupees' (INR) which is also the Company's functional currency and all values are disclosed to the nearest Rupees in Lakhs with two decimals (INR 00,000.00), except when otherwise indicated.

Summary of significant accounting policies**a) Use of estimates**

The preparation of these financial statements in conformity with the recognition and measurement principles of IND AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and the disclosure of contingent liabilities at the end of the reporting period and revenues and expenses during the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

b) Current versus non-current classification

Assets and Liabilities in the balance sheet have been classified as either current or non-current based upon the requirements of Schedule III notified under the Companies Act, 2013.

An asset has been classified as current if

- (a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle; or
- (b) it is held primarily for the purpose of being traded; or
- (c) it is expected to be realized within twelve months after the reporting date; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date. All other assets have been classified as non-current.

A liability has been classified as current when

- (a) it is expected to be settled in the Company's normal operating cycle; or
- (b) it is held primarily for the purpose of being traded; or
- (c) it is due to be settled within twelve months after the reporting date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. All other liabilities have been classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

c) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

GMR POCHANPALLI EXPRESSWAYS LIMITED

CIN - U45200KA2005PLC049327

1 Company Overview and Significant Accounting Policies:

Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 — Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

d) Revenue Recognition

Revenue from operations:

Finance income for concession arrangements under financial asset model is recognized using the effective interest method. Revenues from operations and maintenance services and overlay services are recognized concession arrangements in each period as and when services are rendered.

Effective from April 01, 2018, the Company has adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to the contracts that were not completed as of April 01, 2018. In accordance with the cumulative catch up transition method, the comparatives have not been retrospectively adjusted and continues to be reported as per Ind AS 18 "Revenue".

Revenue is measured based on the consideration that is specified in a contract with a customer or is expected to be received in exchange for the products or services and excludes amounts collected on behalf of third parties. Revenue is recognized upon transfer of control of promised products or services to customers. To recognize revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied.

The revenue is recognised when (or as) the performance obligation is satisfied, which typically occurs when (or as) control over the products or services is transferred to a customer.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are initially recognised as revenue earned on account of service concession arrangements where revenue is recognised over the period of time as receipt of consideration is conditional on successful completion of performance obligations such as periodic maintenance services under the service concession arrangements. Once the performance obligation is fulfilled, the contract assets are classified as receivable under service concession arrangements.

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract. Amount received from customer as per the half yearly annuity stipulated under the service concession arrangements to recognise revenue once the periodic maintenance services is completed and performance obligations are achieved.

Finance income and other income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is included in other income in the statement of profit and loss.

On disposal of current investments, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss. Such income is included under the head "other income" in the statement of profit and loss.

Dividend income is accounted for in the year in which the right to receive the same is established by the reporting date.

1 Company Overview and Significant Accounting Policies:

e) Property, Plant & Equipment

Property, Plant & Equipment are stated at acquisition cost less accumulated depreciation and cumulative impairment. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met.

Recognition:

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if:

- it is probable that future economic benefits associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

When significant parts of plant and equipment are required to be replaced at intervals, Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Refer significant accounting judgements, estimates and assumptions and provisions for further information about the recorded decommissioning provision.

Gains or losses arising from de-recognition of tangible assets are measured as the difference between the net disposable proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognised.

Further, When each major inspection is performed, its cost is recognised in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied.

Any remaining carrying amount of the cost of the previous inspection (as distinct from physical parts) is derecognised.

Machinery spares which are specific to a particular item of PPE and whose use is expected to be irregular are capitalized as fixed assets.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the company intends to use these during more than a period of 12 months.

Depreciation on PPE is provided on straight line method, up to the cost of the asset (net of residual value), in accordance with the useful lives prescribed under Schedule II to the Companies Act, 2013 which are as below:

Plant and equipment	4-15 years
Office equipment	5 years
Furniture and fixtures	10 years
Vehicles	8-10 years
Computers	3 years

Depreciation on additions is being provided on a pro-rata basis from the date of such additions. Similarly, depreciation on assets sold/discharged off during the year is being provided up to the dates on which such assets are sold/discharged off. Modification or extension to an existing asset, which is of capital nature and which becomes an integral part thereof is depreciated prospectively over the remaining useful life of that asset.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

f) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in an amalgamation in the nature of purchase is their fair value as at the date of amalgamation. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

g) Financial Assets - Receivable towards the concession arrangement from the grantor

When the arrangement has a contractual right to receive cash or other financial asset from the grantor specifically towards the concession arrangement (in the form of grants) during the construction period or otherwise, such a right, to the extent eligible, is recorded as financial asset in accordance with Ind AS 109 "Financial Instruments," at amortized cost.

1 Company Overview and Significant Accounting Policies:

h) Taxes

Tax expense comprises current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled after tax holiday period, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any carry forward of unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

i) Borrowing costs

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

j) Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value on First In First Out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

k) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

The Company is the lessee

Right-of-use assets

Till year ended March 31, 2019, assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straight-line basis except where scheduled increase in rent compensate the lessor for expected inflationary costs.

For any new contracts entered into on or after April 1 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

The Company enters into leasing arrangements for office premises. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

1 Company Overview and Significant Accounting Policies:

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset. The Company has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the lease term.

The Company is the lessor

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

There is no transitional effect on adoption of Ind AS 116 as at April 1, 2019.

l) Impairment

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating units' (CGUs) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the company's cash generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognized in the statement of profit and loss, except for previously revalued tangible fixed assets, where the revaluation was taken to revaluation reserve. In this case, the impairment is also recognized in the revaluation reserve up to the amount of any previous revaluation.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the assets recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and Loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

m) Provisions, contingent liabilities, contingent assets and capital commitments**Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are only disclosed when it is probable that the economic benefits will flow to the entity.

1 Company Overview and Significant Accounting Policies:**Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

n) Retirement and other Employee Benefits

Short term employee benefits and defined contribution plans.

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc., are recognised in the statement of profit and loss in the period in which the employee renders the related service.

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund.

The Company recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related service. If the contribution payable to the scheme for service received before the reporting date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Compensated absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Defined benefit plans**Gratuity**

Gratuity is a defined benefit scheme. The cost of providing benefits under the scheme is determined on the basis of actuarial valuation under projected unit credit (PUC) method.

The company recognizes termination benefit as a liability and an expense when the company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the termination benefits fall due more than 12 months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market yields at the balance sheet date on government bonds.

Remeasurements

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

> The date of the plan amendment or curtailment, and

> The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

o) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Financial assets**Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are only classified as Debt instruments at amortised cost.

1 Company Overview and Significant Accounting Policies:**Debt instruments at amortised cost**

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company's of similar financial assets) is primarily derecognised (i.e. removed from the balance sheet) when:

- > The rights to receive cash flows from the asset have expired, or
- > The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b) Financial guarantee contracts which are not measured as at FVTPL

The company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables that do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- > All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.
- > Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- > Financial assets measured as at amortised cost: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not reduce impairment allowance from the gross carrying amount.

1 Company Overview and Significant Accounting Policies:**ii) Financial liabilities****Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings etc.

Subsequent measurement**Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings and security deposits received.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to off set the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered in to and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to Statement of profit or loss.

Embedded Derivative financial instruments

Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of Ind AS109 are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

p) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and in hand and the short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. Bank Overdrafts are shown with in borrowings under Current Liabilities in the Balance Sheet.

For the purpose of the statement of cashflows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

q) Foreign currencies

The financial statements are presented in INR, which is also the company's functional currency.

In preparing the financial statements, transactions in the currencies other than the Company's functional currency are recorded at the rates of exchange prevailing on the date of transaction. At the end of each reporting period, monetary items denominated in the foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the retranslation or settlement of other monetary items are included in the statement of profit and loss for the period.

r) Earnings per share

Basic Earnings Per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating Diluted Earnings Per Share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

s) Corporate Social Responsibility Expenditure

The Company charges its Corporate Social Responsibility Expenditure during the year, to the Statement of Profit and Loss.

1 Company Overview and Significant Accounting Policies:

t) Non-current assets held for sale/ disposal

The Company classifies non-current assets as held for sale/ disposal if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- a) The appropriate level of management is committed to a plan to sell the asset,
- b) An active programme to locate a buyer and complete the plan has been initiated,
- c) The asset (or disposal group) is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- d) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- e) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the standalone balance sheet.

1.4 Key accounting judgements, estimates and assumptions

The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The estimate and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which an estimate is revised and future periods affected.

Significant judgements and the estimates relating to the carrying values of assets and liabilities, provision for employee benefits and others provisions, commitments and contingencies and fair value measurements of investments.

i) Critical Accounting Estimates and Assumptions :

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Income tax

Significant management judgement is required to determine the amount of deferred tax that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies considering the tax holiday period available to infrastructure undertaking. Refer note no.21.04

b) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer note no.30 for further disclosures.

c) Contingencies

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal and contractual claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the use of estimates regarding the outcome of future events. [Refer note no.32]

d) Defined benefit plans (gratuity benefits)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at the interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates in India.

1 Company Overview and Significant Accounting Policies:

ii) Significant judgements :

a) Provision for periodic maintenance (overlay activities)

As per the terms of concession agreement, the Company is required to carry out periodic major maintenance of project roads once in every five years which requires technical evaluation and critical assumptions, accounting estimates and judgements. The management has estimated the cost to be incurred on such periodic maintenance to recognise the provision as per the requirements of IND AS 37. Further details are given in note no.17

b) Expected Credit Loss on Loans:

With respect to loans and deposits given to Group Companies, the Company has not considered any increase in credit risk, considering the assurances through support letters given by the Holding Company to pay the amount inspite of cases of delay in payments by the Group Companies. The expected credit losses have not been provided other than those provided for based on its modification losses. The Company has also assessed the credibility of the Group Companies and that of the Holding Company and is of the view that it does not expect any financial loss in respect of the said loans and deposits. Refer note no.6.

1.5 Introduction of new standards and amendments to existing standards

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below:

i. Ind AS 101 First time adoption of Ind AS

The Company does not expect the amendment to have any significant impact in its financial statements.

ii. Ind AS 103 Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

iii. Ind AS 109 Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.

iv. Ind AS 16 Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment in its financial statements.

v. Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

vi. Ind AS 41 – Agriculture

The Company does not expect the amendment to have any significant impact in its financial statements.

Notes:

- a) GMR Power and Urban Infra Limited[^] (GPUIL/holding Company) [erstwhile holding Company GMR Infrastructure Ltd (GIL)] had divested during the previous year its entire 51% equity stake along with its subsidiaries held in Kakinada SEZ Ltd (KSEZ) to Aurobindo Realty & Infrastructure Pvt Ltd (ARIPL). In terms of the divestment plan, GIL (now GPUIL[^]) along with KSEZ, GMR SEZ & Port Holdings Limited and Kakinada Gateway Port Limited had entered into Securities Sale and Purchase Agreement (SSPA) with ARIPL, on September 24, 2020, as amended on March 31, 2021. The Company along with GIL, KSEZ and other group companies had entered into a Memorandum of Understanding (MOU) on March 31, 2021 with ARIPL. In terms of this MOU and debenture subscription agreement entered with Kakinada SEZ Limited on March 31, 2021, the Company had converted a portion of existing loan amounting to Rs.3,729.57 Lakhs into 3,72,95,676, 12% Compulsorily Convertible Debentures (CCD's) of Rs.10 each for a period of 29 years.
- b) The Company had further entered into Debenture Purchase Agreement (DPA) on March 31, 2021 with ARIPL and KSEZ. In terms of DPA, the company had agreed to sell 3,72,95,676 CCD's on closing date for a total consideration of Rs.4,181.97 Lakhs (including contingent consideration payable by ARIPL of Rs.3,147.85 Lakhs on achievement of milestones) subject to terms and conditions set out in DPA. Total consideration including additional payment of Rs.3,147.85 Lakhs payable over next 2 to 3 years as per Annexure I of DPA is based on achievement of certain agreed milestones primarily related to the sale of 2,500 acres of the land parcels at specified prices during the financial years ended March 31, 2022 and March 31, 2023. These milestones are market dependent and are not under management control. The receivable/investment on CCD's had been fair valued as on March 31, 2021 by the Company at Rs.3,307.12 Lakhs (including upfront consideration of Rs.1,034.12 Lakhs) from an expert valuer who had considered various assumptions and scenarios on achievement of milestones with probable outcomes which was significantly dependent on future development in KSEZ and Governments approvals.
- The Company's investment in KSEZ CCD's was transferred in the name of ARIPL on August 20, 2021 against the consideration received of Rs.1,034.12 Lakhs and the balance amount receivable towards sale of investment in CCD's in KSEZ of Rs.1,456.00 Lakhs (net of fair valuation loss) being contingent consideration was classified as 'Other Current Financial Assets'.
- During the year, the Company has fair valued the contingent consideration receivable through an expert valuer who had considered various assumptions and scenarios on achievement of milestones with probable outcomes which was significantly dependent on future development in KSEZ and Governments approvals and accounted for the fair value loss in excess of carrying value of the contingent consideration receivable amounting to Rs.1,239.45 Lakhs [March 31, 2021 : Rs.422.45 Lakhs].
- The Company/Group expects in next 2-3 years there will be significant development in the Kakinada SEZ which includes the development of Bulk Drug Park, Commercial Sea port, establishment of various port based industries, manufacturing industries, development of new International Airport in Bhogapuram. Based on assessment of the achievement of the aforementioned milestones by an independent property consultancy agency, management of the company is confident of achieving the aforementioned milestones and is of the view that the carrying value of amount receivable towards sale of Investment in CCD's in KSEZ being fair valued contingent consideration as at March 31, 2022 is appropriate. The above sale transaction is subject to receipt of Regulatory and other Statutory Approvals.
- [^] transactions with GMR Infrastructure Limited [GIL] is transferred in the name of GMR Power and Urban Infra Limited [GPUIL] w.e.f. January 01, 2022 in terms of the Composite Scheme of Arrangements approved by the National Company Law Tribunal (NCLT) vide its Order dated December 22, 2021.

 - Holding Company, GMR Power & Urban Infra Ltd (GPUIL) [earlier GMR Infrastructure Ltd (GIL)] had divested its entire 51% equity stake held in Kakinada SEZ Ltd (KSEZ) to Aurobindo Realty & Infrastructure Pvt Ltd (ARIPL). As part of the transaction, during the previous year, the Company had converted portion of existing unsecured loan of Rs.3,650.55 Lakhs (out of Rs.7,500.00 Lakhs) and balance interest accrued of Rs.79.02 Lakhs into Compulsorily Convertible Debentures (CCD's). During the year ended March 31, 2022, the Company has recovered entire loan from KSEZ through GPUIL in terms of divestment plan.
 - Loan granted during earlier years of Rs.1,967.07 Lakhs to GMR SEZ and Port Holdings Private Limited shall be repayable within 1 year from date of renewal. During the year, the loan granted during earlier years along with interest accrued of Rs.2,510.00 Lakhs to GMR SEZ and Port Holdings Private Limited has been converted to long term loan, shall be repayable within 3 years or further extended period as mutually agreed between the parties.
 - An unsecured loan of Rs.266.53 Lakhs (March 31, 2021 : 266.53 Lakhs) given to GMR Ambala Chandigarh Expressways Private Limited shall be repayable within 1 year from date of renewed agreement.
- The Company has undertaken an assessment of these loans considering the creditworthiness of the borrower along with the support letter of holding company GMR Power & Urban Infra Ltd (GPUIL) [earlier, GMR Infrastructure Ltd (GIL)] to make good the amounts on defaults if any by the Group Companies. In view of such assessment and obtaining of the support letter received from GPUIL, the management is of the opinion that the loans are good and no credit impairment is foreseen which requires credit losses to be recognized other than those considered in the modification losses. GPUIL has ensured that they will be able to provide sufficient funds to these Group Companies to make payment of the loans / deposits along with interest accrued thereon and accordingly the loans / deposits given by the Company are considered good and no further provision is considered necessary in the accompanying financial statements.

Note:

a) The Company, being Infrastructure Company, enjoys the benefit of tax holiday period for 10 years out of first 20 years of operations. In initial years of operations, the Company has incurred losses and hence had not claimed the benefit of tax holiday period. The Management expects that all deferred tax liabilities originated as on balance sheet date pertains basically to infrastructure undertaking which is covered under section 80IA of the Income tax Act, 1961. As per the management projections these differences which are originated are getting reversed within the Section 80IA tax holiday period and resulting in insignificant deferred tax asset as at the end of the Section 80IA tax holiday period which incidentally is also the end of the project period. Accordingly, the company has not recognised the resulting deferred tax liability/asset that is expected to reverse during the tax holiday period.

21.05 The unused business loss and allowances is allowable in future period against taxable profit as follows:

Operations and maintenance income	3,602.45	4,705.14
Finance income on financial assets	2,703.44	3,161.53
Total	6,305.89	7,866.67

Notes:

a) Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted.

In the Service Concession agreement the Company has applied the guidance in Ind AS 115, by applying the revenue recognition criteria for each distinct performance obligation. The arrangement with the grantor generally meets the criteria for considering regular maintenance and periodic maintenance services as two distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of the contract at its relative standalone price using the expected cost plus margin approach. For periodical maintenance (overlays) and related services, the performance obligations are satisfied only when the services are rendered since the customer generally obtains the control of the work as it progresses though the company accounts for the provision for periodic maintenance as a best estimate is recognised and measured over the period of time in terms of Ind AS 37.

b) Disaggregate revenue information for the year ended March 31, 2022 and March 31, 2021:

The Company has presented disaggregated revenue from contracts with customers (under service concession arrangements) for the year ended March 31, 2022 by offerings and is of the opinion that, this disaggregation best depicts the nature, amount, timing of revenues and cash flows that are affected by the industry markets and other economic factors.

Particulars	Rupees in Lakhs	
	March 31, 2022	March 31, 2021
Revenue by offering	3,602.45	4,705.14
Operations and maintenance	2,703.44	3,161.53
Financial asset	6,305.89	7,866.67
Total		

The Company has not identified any disaggregated revenues based on contract types.

c) Performance obligations:

Revenue from periodic maintenance (overlay) are recognised as per the service concession arrangements.

The performance obligation provides the aggregate amount of transaction that is pending to be performed and transaction price yet to be recognised as at end of the reporting period. The Company has applied the practical expedient as given in Ind AS 115 as the performance obligation on periodic maintenance as a part of a concession agreement that has an original expected duration of more than one year. The aggregate value of performance obligation that are unsatisfied as at March 31, 2022 is Rs.9,349.59 Lakhs. The company will recognise revenue on completion of the performance obligation on attaining finality of pending litigation [refer note no.33]. Pending the same the performance obligations are recognised as provisions without corresponding recognition of revenue in terms of Ind AS 115.

Assets and liabilities under service concession arrangements on which performance obligation is not satisfied are classified as contract assets and contract liabilities respectively. Refer note nos.8 and 20 above.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have exposure to the risk of changes in market interest rates in view of the Company's long-term debt obligations with fixed interest rates. Borrowings at fixed rates expose the Company to fair value interest rate risk. In respect of deployment of funds by the company as loans/deposits to the related parties the interest rate risk has been considered by the company by fixing the terms for those loans for a period not exceeding one year which may be renewed with rates reflecting current market scenario.

The Company analyses its interest rate exposure on a dynamic basis. The Company's policy is to manage its interest cost using only interest free/ fixed rate debts from related parties.

Interest rate sensitivity:

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. 50 basis points represents management's assessment of reasonably possible change in interest rate. With all other variables held constant, the Company's profit/(loss) before tax is affected through the impact interest rate of borrowings is as follows:

Particulars	Type of currency	Increase/ decrease in basis points	Rupees in Lakhs			
			Effect on profit before tax		Effect on total equity	
			March 31, 2022	March 31, 2021	March 31, 2022	March 31, 2021
Increase of profit	INR	(+)50	103.06	124.79	103.06	124.79
Decrease of profit	INR	(-)50	(103.06)	(124.79)	(103.06)	(124.79)

31.02 Commodity price risk

The Company is affected by the price volatility of certain commodities which is moderated by optimising the procurement for operating activities which require continuous procurement of road operation and maintenance materials. Therefore the Company monitors its purchases closely to optimise the price.

31.03 Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Financial instruments that are subject to credit risk and concentration thereof principally consist of receivables under concession agreement/other receivables, loans, investments, cash and cash equivalents provided by the Company. The carrying value of financial assets represents the maximum credit risk, which may be affected by the changes in the credit risk of the counter parties.

No credit limits were exceeded during the reporting period other than those under litigation, and management does not expect any losses from non-performance by these counterparties.

Credit risk from balances with bank and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Loans are non-derivative financial instruments which generate a fixed or variable interest income for the Company. The carrying value of loans may be affected by the changes in the credit risk of the counter parties. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in liquid mutual fund units for a specified time period.

The carrying values of the financial assets approximate its fair values. The above financial assets are not impaired as at the reporting date. Other financial assets are neither past due nor impaired at reporting date. The cash and cash equivalents are maintained with reputed banks. Hence the Company believes no impairment is necessary in respect of the above financial instruments.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022**31.04 Liquidity risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities when they become due without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Company's treasury department is responsible for liquidity, funding as well as settlement management.

Management monitors rolling forecasts of the Company's liquidity reserve on the basis of expected cash flow. This is generally carried out at by the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these; monitoring balance sheet liquidity ratios against internal and external regulatory requirements; and maintaining debt financing plans. The Company also issues preference shares to the parent company/ group companies from time to time to ensure a liquidity balance.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the working capital is sufficient to meet its current requirements.

As at March 31, 2022, the Company had a working capital of Rs.36,349.86 Lakhs including cash and cash equivalents of Rs.4,122.47 Lakhs and current investments of Rs.0.00 Lakhs. As at March 31, 2021, the Company had a working capital of Rs.36,071.16 Lakhs including cash and cash equivalents of Rs.5,545.73 Lakhs and current investments of Rs.3,341.10 Lakhs.

The following are the contractual maturities of non-derivative financial liabilities, including the estimated interest payment on an undiscounted basis which therefore differs from both carrying value and fair value. Floating rate interest is estimated using the prevailing interest rate at the year end.

Excessive risk concentration

The Company needs to assess the risks in relation to excessive risk concentration and the measures adopted by the Company to mitigate such risks.

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly. Selective hedging is used within the company to manage risk concentrations at both the relationship and industry levels.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022**31.05 Capital management**

The Company's capital management is intended to create value for shareholders by facilitating the meeting of long term and short term goals of the Company.

For the purpose of the Company's capital management, capital includes issued equity capital, Preference Share and all other equity reserves attributable to the equity holders of the parent. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company includes within net debt, borrowings, trade and other payables, less cash and cash equivalents.

The Company monitors capital using a gearing ratio, which is total debt divided by total capital plus total debt.

Particulars	Rupees in Lakhs	
	March 31, 2022	March 31, 2021
Debt - External long term borrowings	(a) 24,699.62	29,675.37
Capital Components		
Equity Share Capital	13,800.00	13,800.00
Other equity	11,647.75	10,023.78
Liability component of preference share capital	2,805.51	2,534.74
Total Capital	(b) 28,253.26	26,358.52
Capital and debt	(a+b) 52,952.88	56,033.89
Gearing ratio (%)	(a)/(a+b) 46.64%	52.96%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2022 and March 31, 2021.

33 Litigation

The Company had received a penalty notice from National Highways Authority of India (NHAI) levying a penalty of Rs.1,031.00 Lakhs for delay in completion of First Periodic Maintenance of the Project which was subsequently enhanced by CAG to Rs.2,344.00 Lakhs. NHAI had subsequently deducted Rs.1,078.62 Lakhs as penalty and damages while releasing 18th Annuity in March 2018 and from 22nd Annuity an amount of Rs. 1,430.48 Lakhs with further deduction of an amount of Rs.197.90 Lakhs from 25th Annuity towards non-fulfilment of O&M Obligations and non-curing of deficiencies in the time specified in Service Concession Agreement (CA) which is considered recoverable in the opinion of the management.

The Company had invoked Arbitration proceedings against NHAI in respect of the dispute on applicability of carrying out periodic maintenance (overlay work) of the road project once in every five years in the Concession Agreement. On January 14, 2020, the Hon'ble Tribunal had pronounced the award wherein it had not agreed with the contention of the Company that overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and had held that the Company has to carry out overlay irrespective of the condition of the road. In view of the finding, the Tribunal has directed the Company to commence second overlay work with effect from April 01, 2020 and complete by December 31, 2020 and also complete the third overlay work by April 01, 2025. The NHAI has challenged the award before the Hon'ble High Court of Delhi with regard to extending the timeline to commence and complete the second overlay work and third overlay work stating that such concession is not in accordance with Concession Agreement.

The Arbitral Tribunal had further directed NHAI to refund the amount of Rs.1,078.62 Lakhs which was wrongly deducted from the annuity along with interest @12% p.a. from the date of deduction. The Arbitral Tribunal has also directed NHAI to pay Rs.30.00 Lakhs towards costs of litigation and the entire amount of fee paid to the Arbitrators by the Company on behalf of NHAI. NHAI had challenged the award with regard to directions for refund of amount before the Hon'ble High Court of Delhi.

Aggrieved by the findings of the Tribunal, to the limited issue of requirement of overlay upon every 5 years, the Company has filed an application under Section 34 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi by challenging the award to the extent of wrong interpretation of clause 4.3.1 of schedule "I" to CA and rejection of claims for reimbursement of cost of overlay incurred by the company which under given circumstance was not required pending disposal of appeal.

The Honourable Delhi High Court vide its order dated April 06, 2022 had upheld the Company's contentions and held that the overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and rejected the arbitration order which had held that the Company has to carry out overlay irrespective of the condition of the road every five years. It has further upheld the Company's claim in respect of the cost incurred on the first major maintenance and directed that the quantification of the claim to be done by the arbitrator appointed by it. The awards of tribunal on other matters favourable to the Company was further upheld by the High Court.

The Management of the Company has been further advised by its legal counsel that the order of the single bench of the Honourable High Court of Delhi would be challenged by NHAI before the Appellate Court and the matter has not yet attained finality. The Implication of the favourable order to the Company would have affected the carrying value of Service Concession Receivables by reduction of the outflows on overlay cost which would have resulted in significant modification gain to the Company on reversal of those provisions. Pending finality and clarity in the matters the Company under prudence has not affected the impact of the order in the financial asset pertaining to the service concession agreement and has carried the provision for overlay cost in the books considering that there would be outflows with regard to the second and third major maintenance (overlay work) for arriving at the financial income and modification gains and has not reversed the provisions done for overlay works. The modification gains to give effect to the order of the single bench of the Honourable High Court of Delhi would be given on the finality of legal proceedings.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

- 34 The Supreme Court (SC) had passed an order dated February 28, 2019 stating that for the purpose of contribution to be made under the Employees Provident Fund and Miscellaneous Provisions Act, 1956 ('EPF Act'), the definition of basic wages includes all emoluments paid in cash to the employees in accordance with the terms of their contract of employment. In view of the same, the Company is liable to make further contribution towards Provident Fund ('PF') on the entire salary paid by it to its employees other than certain emoluments based on performance and variable. However, there is no clarity on effective date from when the liability is required to be paid by the Company. As a matter of caution, the Company has accounted and paid the PF liability in terms of the SC order on a prospective basis from the date of the SC order i.e., April 1, 2019 onwards. The Company further will account and pay the differential PF liability if any, on receiving further clarity on the subject from the Provident Fund Authorities and the impact if any which in view of the Company is not expected to be material.
- 35 The Indian Parliament has approved the Code on Social Security, 2020 ('Code') which may impact the contribution by the Company towards Provident Fund and Gratuity. The effective date from which the Code and its provisions would be applicable is yet to be notified and the rules which would provide the details based on which financial impact can be determined are yet to be framed. The Company will complete its evaluation and will give appropriate impact, if any, in the financial results/statement following the Code becoming effective and the related rules being framed and notified.
- 36 The Management of the Company is of the opinion that no provision is required to be made in its books of account other than those already provided if any, with respect to any material foreseeable losses under the applicable laws, accounting standards or long term contracts. The Company does not have any derivative contracts.
- 37 Non-consideration of Service Concession Agreement adjustment for the purpose of computing Income under section 115JB of the Income Tax Act, 1961:

The Company had entered into concession agreement with National Highways Authority of India for rehabilitation and strengthening of existing 2-lane portion from km 367.000 (Adloor Yellareddy) to km 447.000 (Kalkallu), covering 80.745 kms, and Improvement, operation and maintenance of kms 447.000 (Kalkallu) - 464.000 (Gundla Pochanpalli) covering 17.00 kms on NH-7 in the state of Andhra Pradesh, to 4 lanes under a concession on build, operate and transfer (BOT).

Indian Accounting Standards (Ind AS) was made applicable to the Company from financial year (FY) 2016-17. Under Ind AS the company being an operator under Service Concession Agreement (SCA) entitled to fixed annuity has classified Carriageways as financial assets. The company in terms of the same is apportioning proportionate amount of Annuity received by it every year to the financial assets so that at the end of concession period the assets becomes NIL and the balance towards financing income and service revenue towards operations. The company accordingly is not charging any depreciation on carriageways as was done under IGAAP. Accordingly the proportionate amount of annuity charges to carriageways is not shown as income / revenue in the profit and loss account and similarly depreciation is not claimed as expenses as was done under IGAAP.

As per the provision of section 4 and 5 of the Income Tax Act, the above amount of Annuity which is not included in the profit and loss account is chargeable to tax under normal provision of Income Tax Act. Similarly, the company is eligible to claim expenses of periodic maintenance (overlay) and income tax depreciation under the normal provision of Act.

The Company while Computing Book Profit in terms of Section 115 JB of Income Tax Act 1961 has offered the above amount of annuity for tax and corresponding depreciation on carriageways (original cost of project road) and expenses towards periodic maintenance has been claimed while computing book profit under section 115JB of the Act as against the book profit arrived at in the financials based on the financial model in terms of applicable Indian Accounting Standards.

In this regard, the company had placed reliance on the rationale of introducing the MAT provisions (by way of section 80VVA of the Act), that actual income of the company without allowing deduction under any of the listed provision has to be taxable. The management is of the opinion that adjustment made towards SCA results in recognition of notional financial income ignoring annuity income, actual depreciation and will lead to taxability of notional income and expenses which will defeat the purpose of introduction of the provision of MAT. As such while computing the book profit under 115JB of the Act, the company has removed the notional adjustment as required for SCA model under IND-AS scenario and offered actual profit under MAT computed in lines with the IGAAP which it hitherto was following prior to introduction of Ind-As in FY 2016-17 in its income tax returns. The Company has been advised that the said treatment has not been challenged by the income tax department in the assessment proceedings held during the year for the accounts of first year of adoption of Ind As and the returns have been accepted.

The Company for the purposes of preparation of financial statements for the current period and previous year has provided for the current tax expense considering profits arrived under financial statements as the most likely amount of tax liability for the year under prudence. The provisions would be crystallized on the finalization of the income tax assessment proceedings and necessary entries would be passed.

38 Impact of Covid-19 pandemic

The COVID-19 pandemic has impacted businesses globally and in India. The Company has continued its assessment of likely adverse impact on economic environment in general and financial risks on account of COVID-19. The Company, however, believes strongly that its offerings to the customer falls in essential services and would not significantly impact its revenue.

The Company is engaged in development of highways on build, operate and transfer model for which the consideration is received on fixed half-yearly annuity from NHAI. The management hence is of the opinion that there is no impact on the cash inflows and consequently on revenue recognition. The Company proposes to claim compensation if any, under Force Majeure to the extent it deems can be claimed once its impacts are ascertained.

The impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. However, management does not anticipate significant negative impact on operational activities of the Company.

The Company on the basis of their assessment believes that the probability of the occurrence of their forecasted transactions is not much impacted by COVID-19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk.

However due to the nature of the pandemic and emerging multiple new variants of COVID 19 and treatment for its eradication, the Company will continue to be vigilant on various developments / impacts in the future so as to insulate itself from any material adverse impact.

- 39 The Company is engaged primarily in the business of Construction, Operation & Maintenance of Highways. As per the requirements of Ind AS 108, " Operating Segments", the principal revenue generating activities of the Company is from Operation & Maintenance of Highways which is regularly reviewed by the National Highways Authority of India (NHAI). Accordingly, the management is of the view the Company has a single reportable segment and the requirements of reporting on operating segments and related disclosures as envisaged in Indian Accounting Standard 108 is not applicable to the present activities of the Company.

The Company's only segment being Operation & Maintenance of Highways comprises of one customer which has contributed 100% of the revenue during the year.

- 40 The Company has initiated the process of Balance confirmations and is yet to receive balance confirmations in respect of certain financial assets and financial liabilities. The Management however does not expect any material difference affecting the current year's financial statements due to the same.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

Particulars	Rupees in Lakhs	
	March 31, 2022	March 31, 2021
vii. Quantitative sensitivity analysis for significant assumptions is as below:		
Increase / decrease on present value of defined benefit obligation as at year end		
(i) one percentage point increase in discount rate	(4.80)	(4.19)
(ii) one percentage point decrease in discount rate	5.42	4.78
(iii) one percentage point increase in salary escalation rate	3.63	3.13
(iv) one percentage point decrease in salary escalation rate	(3.40)	(2.85)
(v) one percentage point increase in employee turnover rate	1.21	1.02
(vi) one percentage point decrease in employee turnover rate	(1.32)	(1.13)

Sensitivity Analysis Method

Sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit obligation by percentage, keeping all the other actuarial assumptions constant.

Risk Faced by Company:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

Interest rate risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase

Salary Inflation risk : Higher than expected increases in salary will increase the defined benefit obligation

Demographic risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

viii. The major category of plan assets as a percentage of the fair value of total plan assets are as follows:

	March 31, 2022	March 31, 2021
Investment with Insurer managed funds - conventional products	100%	100%
